“Everyone deserves to live a life of dignity. FPHC makes this possible for many of those who are less fortunate by providing access to healthcare that they otherwise wouldn’t have.”

Veronica Petersen
Crystal Lake Chapter of 100 Women Who Care
Brandy has insurance and feels compelled to support those who do not.

Brandy was introduced to the Care4 Breast Cancer 5K through listening to Star 105.5’s Joe Cicero and Tina Bree talking about the need for support of local men and women who do not have health insurance and need breast cancer screenings. She finally connected with the clinic when she was diagnosed with breast cancer and felt an intimate need to help those who did not have insurance like she did. Brandy visited the staff at the clinic to learn all about the services and she sat down for a chat with Cathy Patenaude, FHPC Development and Social Media Manager.

How as your breast cancer detected? I went for my yearly checkup. It was only my second mammogram in my life and my insurance did cover the procedure.

When you learned about the treatment plan did you worry about how much it would cost? I did. I have never been sick in my life so I wasn’t sure how the insurance would cover something so huge like this. Once I learned what my total out of pocket expense would be I didn’t have to worry as much and I could focus on my health.

At the time you received bills for your medical services were you then made aware of the burden that others without insurance go through? Yes, when I started to see the explanation of benefits come in from the insurance company, it showed how much each provider was charging and then it showed if it was covered or not. The thought of someone not having insurance made me sick to my stomach. The last thing someone wants to worry about during this difficult time is how to pay for their treatment when all they should be worrying about is how to get better.

Did this move you to join the Care4 Breast Cancer 5K this year? What really grew my interest was during my last chemo treatment, I decided to wear my wig. This sparked conversation with a young lady. She was shocked at how well the wig looked and she wished she could afford one. Instead, she was limited to wearing hats and scarfs. This really made me sad. Not only do we struggle to fight through this awful disease but there are also women who can’t afford to feel beautiful because of money or not having insurance. At that time, I knew I needed to help others in any way I possibly can. I started to look up Breast Cancer 5k’s in the area. My thought was, if I can help even just one person, then my mission was complete.

Which team have you joined? I joined the Star 105.5 team because I have heard Joe Cicero over the years talk about his mother who battled breast cancer. I knew he was passionate about it, so I felt comfortable joining his team.

What is your feelings about Family Health Partnership Clinic’s mission? I love knowing that the people at Family Health Partnership Clinic are so passionate about helping others in our community. The drive and passion makes me a better person, so thank you for all you do!!

You were invited to tour the clinic. Why was it important for you to meet staff and see the clinic? I wanted to meet the people behind the scenes and hear what each department did. I felt if I saw it personally then I could share my experience and also spread the word. It also helped me understand what type of donations are needed to assist the clinic.

The following individuals were honored or remembered at the Family Health Partnership Clinic.

**IN HONOR OF**
- Dr. & Mrs. Bill Dodds
- Drs. Joe & Eli Emmons
- Dr. Jonathan Kaufman
- Mr. Craig Krandel
- Dr. & Mrs. James Mowery
- Dr. & Mrs. Steve Nuneman
- Dr. & Mrs. Skiba
- Dr. & Mrs. James Skopec
- Mr. John Smith
- Dr. & Mrs. George Stankevych
- Bob & Sherry Thurow
- Mr. & Mrs. Les Urban
- Mr. & Mrs. Brand Whitlock
- Ms. Jane Whitlock & Mr. Mike Whaley
- Ms. Jenny Winkler
- Ms. Lorna Wolff

**IN MEMORY OF**
- Dr. Nabil Omar Ali
- Ms. Mary Ann Sullivan
- Dr. Richard Lind
- Mr. Walter Peters
PARTNERS

Bob and Karen Boncosky – Crystal Lake
Bob and Karen learned about the clinic’s mission in 2000 and believed in having care available to those who had nowhere to go. By supporting the clinic for the past 19 years, they have joined many others in helping our patients lead healthier lives and improving their potential physically and mentally. It is through their commitment to giving back, that Bob and Karen have contributed so much to all who have walked through our doors. Thank you, Bob and Karen.

Reprographics - Crystal Lake
Reprographics printed our Gala auction books in 2009, 2010 and in 2012 they printed our Capital Campaign posters and kick-off material. They then started working with our volunteer, Peggy Grasley, on our Care4 5k Sponsor banner. Herman Braun, Owner of Reprographics Imaging and Art Supplies, the largest supplier of art supplies in Northern Illinois and Southern Wisconsin, has been very supportive and responsive to our printing needs. With their large format digital printing equipment, they have printed the large road-side banners our community sees throughout McHenry County and the sponsor banner that hangs above the stage at the Care4 5k. We thank Herman and his team for their generosity and keeping our event costs low so more funds can go directly to patient care!

Diane Swanson – McCullom Lake
Though Diane is no longer a clinic patient she has remained connected to us. She regularly drops in with chocolates for our staff, volunteers at our Care4 Breast Cancer 5K, and she shares her story whenever she can. Diane has presented her story to audiences that have hosted the clinic and she is always available to our request for outreach and awareness. Diane tells us often how thankful she is for the clinic and all we have done for her. And we are just as thankful for the giving back that Diane does for the clinic!

OUR VOLUNTEER PROVIDERS

Our volunteer providers are in the clinic at least monthly. We appreciate their hard work and commitment to the underserved.

Thanks to YOU
our COMMUNITY is Healthier
Sara is celebrating one year volunteering at the clinic as an interpreter and she is a very important person in helping our patients. Sara reads, writes and speaks Spanish fluently which gives her an intimate look into the needs of some of our patients. She began assisting in our Social Determinants of Health program by calling patients two weeks post appointment to inquire if they needed any more help or information. Following up on housing, legal, pharmacy assistance cards are just a sample of some of the resources Sara regularly gives to patients and she determines if those resources were helpful enough by asking patients. “Every patient I have worked with has gone on to investigate the resources they were given. The patients are very dedicated to following up on helpful suggestions and improving their lives which makes me happy.” Sara also shares that all patients appreciate everything they have received from the clinic and its programs. “I have such an enjoyable time meeting patients, surprising them with my Spanish skills, and using humor to help them feel more comfortable during their visits. Seeing their strong appreciation of the care is amazing.”

Sara currently interprets for patients in exam rooms helping clinic providers communicate thoroughly. She is also extremely helpful at our monthly Celebremos La Vida program explaining processes and procedures to the women who are there for Paps and mammograms. “I regularly hear from patients that they would not know where to go if the clinic were not available to them and it is a reality check. I have always had insurance and, in a way, took it for granted before I met people who had little to no coverage. And, to learn firsthand that some people have been going without medical care because they cannot afford it has been an eye opener for me. I believe we are on this Earth to give back and help others. My neighbor, Julie Franz, who is a clinic nurse, suggested that I volunteer and I am honored to be at the clinic helping patients access care.”

“Seeing their (patients) strong appreciation of the care is amazing.”

Because the Clinic does not rely on government funding for its operations, we appreciate the tremendous community support we receive. We also appreciate the businesses and organizations that have partnered with us to help deliver services to those who would otherwise go without. Some of our community partners who have provided funding, services, or in-kind contributions from the period July 1, 2018 - June 30, 2019.

Maria appreciates you!

Maria first came to the clinic in 2004 when it was located in Woodstock. She learned of the clinic when she told her friend that she wasn’t feeling well and did not know what to do for care. Though she works full time, Maria has not had insurance because the insurance offered at her job is not affordable after she pays all of her monthly bills. “I tried to make it work, but it was impossible to pay for insurance.”

“I have thought about what I would do without the clinic, and I have not been able to come up with one place that I could go. It is very important to have the clinic available for low income people.” Maria also shared much gratitude for those who support the clinic in any way. She has received treatments over the years and encourages others to follow her example if they do not have insurance. “I would like to tell women, in particular, to not be afraid to come to the clinic because they are unable to afford care. They need to not let fear keep them from getting care such as Paps and mammograms.”

Maria A., Crystal Lake

“My husband and I feel that every person should have access to good health care. We are pleased to support Family Health as they strive to provide services to those who cannot afford this care.”

RR, Woodstock, IL

MISSION

The Family Health Partnership Clinic will improve the health status of the community and reduce the negative economic impact of poor access to care by providing a broad spectrum of services to the under-served with compassion and respect. We recognize that as a community, we are responsible for each other.

Serving the uninsured
of McHenry County since 1996
